Reviewer's report

**Title:** The effect of statins on testosterone in men and women, a systematic review and meta-analysis of randomized controlled trials.

**Version:** 2 **Date:** 9 November 2012

**Reviewer:** Bu Yeap

**Reviewer's report:**

The manuscript is improved, but the following minor essential revisions should be made.

- **Minor Essential Revisions**

Page 7 lines 27-29: delete "which should be counteracted by testosterone therapy for maximum cardiovascular benefit". The change is testosterone levels is small and this is entirely speculative.

Page 9 line 8: Change "This study based on experimental evidence" to "This meta-analysis"
