Reviewer's report

Title: Copeptin Measurement as a Marker of Short-, Mid-, and Long-Term Mortality in All-Comers

Version: 2 Date: 27 March 2014

Reviewer: Roland M Bingisser

Reviewer's report:

I am happy with the changes in terms of content. The paper has improved. However, some spelling mistakes should be eliminated, and the work of reviewers could be helped by marking changes in the text

- Major Compulsory Revisions: NONE

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

My only possible competing interest is my work on copeptin in nonspecific complaints. This topic has no connection to presentation with chest pain (specific complaint). I do not get any reimbursement now or in the future by Thermofisher, holder of the patent.
