Reviewer's report

Title: Biological efficacy of low versus medium dose aspirin after coronary surgery: results from a randomized trial [NCT00262275]

Version: 3 Date: 25 April 2006

Reviewer: Christiaan J Vrints

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

The authors should delete the clopidogrel part of their study.

Which journal?: Appropriate or potentially appropriate for BMC Medicine: an article of importance in its field

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Quality of written English: Acceptable

Statistical review: Yes
