Reviewer's report

Title: Effects of the diabetes linked TCF7L2 polymorphism in a representative older population

Version: 2 Date: 17 November 2006

Reviewer: Michael Boehnke

Reviewer's report:

General
My concerns have been addressed fully. I advise accepting the manuscript.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
