Reviewer’s report

Title: Corticotrophin Releasing Factor 2 Receptor Agonist Treatment Significantly Slows Disease Progression in MDX Mice

Version: 2 Date: 26 March 2007
Reviewer: Jill Rafael-Fortney

Reviewer’s report:

General
All previous comments have been adequately addressed.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
Level of interest: An article of importance in its field
Quality of written English: Acceptable
Statistical review: No, the manuscript does not need to be seen by a statistician.
Declaration of competing interests:
