Reviewer’s report

Title: Knee arthroscopy and exercise versus exercise only for chronic patellofemoral pain syndrome. A randomized controlled trial.

Version: 3 Date: 8 October 2007

Reviewer: Ching-Chuan Jiang

Reviewer’s report:

General

---------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

---------------------------------------------------------------------------------

Which journal?: Appropriate or potentially appropriate for BMC Medicine: an article of importance in its field

What next?: Accept for publication in BMC Medicine without revision

Quality of written English: Acceptable

Statistical review: No
