Reviewer’s report

Title: Modelling NF1 tibial dysplasia and its treatment with lovastatin.

Version: 2  Date: 9 June 2008

Reviewer: David G Little

Reviewer’s report:

I have no major revisions, the revised manuscript is much improved and scientifically acceptable for publication.

I note a few minor English language corrections for the authors and editor to consider.

Page 5 line 17 – anti-katabolic should be anti-catabolic
Page 5 line 6 and line 13 – Shortly should be briefly
Page 5 Line 16 – aliquoes should be aliquots
Page 5 Line 23 – delete the in front of Phosphate
Page 6 Line 11 – described should be described
Page 6 Line 17 – delete The in front of Runx2
Page 7 Line 5 – the unpaired t test should be an unpaired t test
Page 9 Line 6 – medullar should be medullary
Page 19 Line 4 – Toluidin should be Toluidine
Page 20 Line 16 – as above Toluidin
Page 20 Line 3 – as above Toluidin

Which journal?: Appropriate or potentially appropriate for BMC Medicine: an article of importance in its field

What next?: Accept for publication in BMC Medicine after discretionary revisions

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
