Reviewer's report

Title: Increased deposition of C3b on red cells with low CR1 and CD55 in a malaria endemic region of western Kenya: Implications for the development of severe anemia

Version: 4 Date: 3 May 2008

Reviewer: Jim Todd

Reviewer's report:

The authors have adequately addressed the revisions.

Which journal?: Appropriate or potentially appropriate for BMC Medicine: an article of importance in its field

What next?: Accept for publication in BMC Medicine without revision

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
