Reviewer's report

Title: Normalization Process Theory: a framework for developing, evaluating and implementing complex interventions.

Version: 4 Date: 14 September 2010

Reviewer: Jo Rycroft-Malone

Reviewer's report:

I think the authors have attended to the comments of the reviewers and the paper now feels more coherent. The only remaining comment is about the level of critique, however, I accept that the main aim of the paper is to describe how NPT can be applied.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
