Reviewer’s report

**Title:** The Potential Interaction Between Clopidogrel and Proton Pump Inhibitors: A Systematic Review

**Version:** 1  **Date:** 7 October 2010

**Reviewer:** Lehana Thabane

**Reviewer's report:**

This is a report of a systematic review to assess the evidence for a clinically meaningful interaction between clopidogrel and proton pump inhibitors (PPIs).

Below is a brief review of the statistical aspects of the study focusing mainly on the design, methods, analysis, reporting and interpretation of the results.

1) Abstract: Objective: Consider replacing "significant" with "meaningful" or "important".

2) Methods: Consider providing a brief description of the statistical methods used to assess agreement between reviewers; and to analyse the data along with software for analysis.

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.
