Reviewer's report

Title: Review: Ischemic Renal Injury

Version: 2 Date: 9 August 2010

Reviewer: Shigehiko Uchino

Reviewer's report:

Munshi et al write a review article for ischemic renal injury, including ischemic AKI pathophysiology, relationship between AKI and CKD progression, and promising therapies. This is a well-written concise review for AKI and I have no comments to make.

Which journal?: Appropriate or potentially appropriate for BMC Medicine: an article of importance in its field

What next?: Accept for publication in BMC Medicine without revision

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
