Reviewer's report

Title: A systematic review on the effect of sweeteners on glycemic response and clinically relevant outcomes

Version: 2 Date: 17 August 2011

Reviewer: rejeanne gougeon

Reviewer's report:

major compulsory revisions: none
minor essential revisions: none
Discretionary revisions: none
All points suggested previously have been answered sufficiently well by the authors to allow their manuscript to be published.
Minor issues not for publication: the authors should replace the word "Between" by "among" when comparing or referring to more than one study, trial or sweetener throughout the manuscript.

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
