Reviewer's report

Title: Differential endothelial cell gene expression by African Americans versus Caucasian Americans: A possible contribution to health disparity in vascular disease and cancer

Version: 3 Date: 7 October 2010

Reviewer: Ding Ma

Reviewer's report:

The authors have revised the manuscript in detail. However, the statistical methods were still not clearly shown. Which kind of the statistical software was used in this paper? And the statistical methods were not described clearly in the methods.
