Reviewer's report

Title: Development the Scale for Determining Violence in Infertile Women

Version: 1 Date: 13 August 2013

Reviewer: Recep Yildizhan

Reviewer's report:

Dear Editor,

I'm sorry to be so late with the review. The study is significant and well explained which gives a comprehensive view of domestic violence in infertile women. The methods are appropriate and well described. The data are well controlled. The manuscript adheres to the relevant standards for reporting and data deposition. The discussion and conclusions are well balanced. The improved scale is appropriate to identify domestic violence in infertile women specifically. The scale's consistency was also measured by Cronbach’s Alpha. Title and abstract accurately convey what has been found. The writing is acceptable.

Best regards,
Recep Yildizhan

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
