Reviewer's report

Title: A cluster randomized controlled trial to evaluate the effectiveness of the clinically integrated RHL evidence-based medicine course

Version: 1 Date: 9 October 2009

Reviewer: linan LN cheng

Reviewer's report:

I think “A cluster randomized controlled trial to evaluate the effectiveness of the clinically integrated RHL evidence-based medicine course” is a very nice protocol. It will provide good evidence to use RHL for CME to improve the knowledge and change practice of clinician.

Level of interest: An exceptional article

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
