Reviewer's report

Title: Health workers' views toward sexual and reproductive health services for unmarried adolescents in Ethiopia

Version: 1 Date: 14 June 2012

Reviewer: Suneth Agampodi

Reviewer's report:

Major compulsory revisions

You have mentioned that there were over 2733 healthcare workers and selected only 423. Please explain the selection criteria and sampling procedure for your study sample.

What was the data collection procedure you followed?

Have you stratified the sample according to health institutions?

Have you calculated the sample size? If yes, please provide details.

Minor essential revisions

Reporting number of participants should be in results.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
