Reviewer's report

Title: Common definition for categories of clinical research: a prerequisite for a survey on regulatory requirements by the European Clinical Research Infrastructures Network (ECRIN)

Version: 2 Date: 19 August 2009

Reviewer: Maurizio Bonati

Reviewer's report:

Although authors do not reviewed completely the text according to referees' suggestions, in the present form the manuscript was in part improved

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
