Reviewer's report

Title: The Fitness for the Ageing Brain Study II (FABS II): protocol for a randomized controlled clinical trial evaluating the effect of physical activity on cognitive function in patients with Alzheimer’s disease

Version: 3 Date: 26 November 2010

Reviewer: Simon Gilbody

Reviewer's report:

1. Will the study design adequately test the hypothesis?  
   yes
2. Are sufficient details provided to allow replication of the work or comparison with related analyses: if not, what is missing?  
   sufficient detail provided
3. Is the planned statistical analysis appropriate?  
   very clearly presented and appropriate
4. Is the writing acceptable?  
   very clear
