Reviewer's report

Title: A Cluster-Randomized, Placebo-controlled, Maternal Vitamin A or Beta-Carotene Supplementation Trial in Bangladesh: Design and Methods

Version: 2 Date: 12 March 2011

Reviewer: Betty Kirkwood

Reviewer's report:

I thought the paper was good the first time round; now it is excellent. The rewritten introductions and conclusions considerably enhance it and the authors have adequately addressed all the minor comments.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests except that I have also run a large-scale vitamin A and maternal mortality trial.
