Title: Quality Assessment of Reporting of Randomization, Allocation Concealment, and Blinding of Traditional Chinese Medicine RCTs: A Review of 3159 RCTs Identified from 260 Systematic Reviews and Meta-analyses

Version: 1 Date: 17 December 2010

Reviewer: Phil Wiffen

Reviewer's report:

The language is confusing and needs a re-write before it can be considered. I am happy to offer to help the authors to do that.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have taught systematic review methodology at the host institution of the authors
