Reviewer's report

Title: Development of a complex oral health care intervention after stroke: using a mixed methods pilot study to inform the design of a randomised controlled trial.

Version: 4 Date: 24 May 2011

Reviewer: Ian Needleman

Reviewer's report:

Thanks very much to the authors for their thoughtful revision of the manuscript. The reporting of the study is greatly improved and needs only very minor amendment. Minor essential revisions
The only issue is that some of the table numbers in the text do not correspond with the relevant tables.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
