Reviewer's report

Title: Does treatment of subsyndromal depression improve depression- and diabetes-related outcomes? A randomised controlled comparison of psycho-education, physical exercise and treatment as usual

Version: 1 Date: 15 December 2010

Reviewer: Simon Gilbody

Reviewer's report:

this protocol is suitable for publication:

1. Will the study design adequately test the hypothesis?
   YES

2. Are sufficient details provided to allow replication of the work or comparison with related analyses: if not, what is missing?
   GOOD LEVEL OF DETAIL

3. Is the planned statistical analysis appropriate?
   APPROPRIATE

4. Is the writing acceptable
   VERY GOOD
