Title: Treatment of Acute Diverticulitis Laparoscopic Lavage vs. Resection (DILALA) A Randomised Trial

Version: 4 Date: 29 June 2011

Reviewer: lawrence friedman

Reviewer's report:

The authors have made several changes and explained some of the issues regarding which I had questions. It would be better if they inserted the explanations about intention to treat, objective assessment, and block size (or parts of the explanations) in the actual text. Also, one additional wording change should be made at the top of page 5: “Patients are considered for inclusion when surgery…”
