Reviewer's report

Title: Recruiting South Asians to a lifestyle intervention trial: experiences and lessons from PODOSA (Prevention of Diabetes & Obesity in South Asians)

Version: 2 Date: 26 September 2011

Reviewer: Janet Dunn

Reviewer's report:

All the points from my previous review have now been addressed as well as comments from the other reviewers.

The manuscript is now clearer and more informative.

I think it is important to share experiences of recruiting South Asians into clinical trials and this paper should be published.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
