Reviewer's report

Title: Endoscopic Saphenous harvesting with an Open CO2 System (ESOS) Trial. Study design and rationale of a prospective randomized trial for coronary artery bypass grafting surgery

Version: 4 Date: 27 October 2011

Reviewer: lawrence friedman

Reviewer's report:

The responses and edits to the manuscript are satisfactory.

One minor comment: on page 9, in the last line of the highlighted material, “so” should be “therefore.”
