Reviewer’s report

Title: A randomized multi-center comparison of hybrid sirolimus-eluting stents implantation with bioresorbable polymer versus everolimus-eluting stents with durable polymer for the treatment of total coronary occlusions: Rationale and design of the PRImary Stenting of Occluded Native coronary arteries IV study (PRISON IV).

Version: 2 Date: 16 October 2012

Reviewer: Roxana Mehran

Reviewer’s report:

The manuscript is much improved, however it still requires final edits and corrections of some minor grammatical and typographical errors. Otherwise no further comments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
