Reviewer's report

Title: Pancreatogastrostomy versus pancreatojejunostomy for REConstruction after partial PANCreatoduodenectomy - A randomized controlled trial (RECOPANC)

Version: 4 Date: 13 February 2012

Reviewer: Charlie Goldsmith

Reviewer's report:

The P(age)s were numbered from 1 to 18.
1. P 2, p(aragraph) 4, l(ine) 1. There are 2 dates listed here and it is nor clear which each is to reference. These should be clarified. Also there is short FSI that is not located on P 10 and should be.
2. P 8, p 7, last line. The authors have added a sentence to state the date the first patient was randomized; however the date format does not match what is on P 2. These should ALL be made the same format. This reviewer likes the 2011 05 31 with a slash delimiter form rather than the May 31st 2011 form.
3. P 10. Insert the short form FSI and define it.
