Reviewer's report

Title: A randomised controlled trial of Croi MyAction community lifestyle modification programme compared to standard care to reduce progression to diabetes/pre-diabetes in women with prior gestational diabetes mellitus (GDM): Study protocol

Version: 2 Date: 25 March 2013

Reviewer: Helen Murphy

Reviewer's report:

This is an important study in the field of post partum diabetes prevention in women with GDM. The intervention (12 sessions) seems intensive but if effective could have important longer term health benefits.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
