Reviewer’s report

Title: Update on the Collaborative Interventions for Circulation and Depression (COINCIDE) trial: changes to planned methodology a cluster randomized controlled trial of collaborative care for depression in people with diabetes and/or coronary heart disease.

Version: 1 Date: 18 April 2013

Reviewer: lawrence friedman

Reviewer’s report:

I recommend publishing this update to the COINCIDE trial. I have no comments on this update. It should be published linked to the existing publication of the COINCIDE trial protocol so that all readers will have access to both together.
