**Title:** Psychological Advocacy Towards Healing (PATH): randomised controlled trial to determine the effectiveness and cost-effectiveness of a psychological intervention delivered by domestic violence advocates

**Version:** 3 **Date:** 10 June 2013

**Reviewer:** Michele Kiely

**Reviewer's report:**

There are no major revisions being requested.

I still feel the description of the sample size belongs before the description of the intervention.

The only (very) minor essential revision is as follows: in the second paragraph of the Background, fifth line, north (as in "North America") should be capitalized.

**Level of interest:** An article of outstanding merit and interest in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I have no competing interests to declare.
