Title: Developing a Reporting Guideline for Social and Psychological Intervention Trials

Version: 2 Date: 15 May 2013

Reviewer: Lutz Goldbeck

Reviewer's report:

The authors have carefully responded to the reviewers' comments. They sufficiently clarified previously vague points, and I appreciate the new acronym chosen to emphasize on social and psychological interventions. I look forward to the future process of guideline development, with participation of stakeholders from the field of non-medical intervention research.
