Reviewer's report

Title: Study of therapeutic hypothermia (32-35 degrees C) for intracranial pressure reduction after traumatic brain injury (the Eurotherm3235 Trial). Outcome of the Pilot phase of the trial

Version: 4 Date: 6 August 2013

Reviewer: Robert Stevens

Reviewer's report:

In their response letter, the authors have responded satisfactorily to the Reviewer comments.
It is essential that the content of these responses is explicitly integrated into the revised manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No competing interest.
