Version: 3 Date: 29 August 2013

Reviewer: Sarah Denford

Reviewer's report:

Your article is informative and reads well. I accept your justification for the level of analysis presented in this paper, and agree that the depth of analysis is suitable to the aims of this journal. I look forward to reading further publications in the future.

Table 2 is very useful, as is the strengths and limitations section in the discussion. You could possibly have engaged a bit more with the literature; however, I understand that you are restricted by word limits.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
