Reviewer's report

Title: Development and Feasibility Testing of Decision Support for Patients who are Candidates for a Prophylactic Implantable defibrillator: a study protocol for a pilot randomized controlled trial

Version: 1 Date: 17 September 2013

Reviewer: Kelli Allen

Reviewer's report:

1. Study outcomes section largely repeat information elsewhere. Recommend removing & incorporating all information into other sections.
2. Visit 1 - why will usual care group not complete "values" measure?
4. Visit 2 - why does the usual care group not complete prep to decision making & some other measures?
5. Reduce information in discussion that has been included in other sections.
