Reviewer's report

Title: Reflecting on the methodological challenges of recruiting to a UK-wide multi-centre randomised controlled trial in gynaecology outpatient settings.

Version: 3 Date: 2 September 2013

Reviewer: Bridget Young

Reviewer's report:

The authors appear to have revised the article to address my previous comments. However, I could only access the 'clean' version of the revised manuscript and not the track changes version (showing the revisions made), which made it difficult to identify exactly where the changes had been made. It would be helpful if the track changes versions of manuscripts could be made available to reviewers.

There are a few very small typos and formatting errors in the revised manuscript which will need to be addressed.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
