Reviewer’s report

Title: Femoral nerve-block Intervention in Neck Of Femur fracture study - FINOF Trial

Version: 1 Date: 13 February 2014

Reviewer: Eric Albrecht

Reviewer’s report:

In summary, this protocol uses different synonyms and should be more consistent. The background and the discussion were probably quickly written with a lot of information presented without common thread. Outcomes should be defined. The draft should be properly edited.

Level of interest: An article of importance in its field

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
