Reviewer’s report

Title: Use of drug therapy in the management of symptomatic ureteric stones in hospitalised adults: Protocol for the SUSPEND trial, a multicentre, placebo controlled, randomised trial of a calcium channel blocker (nifedipine) and an alpha-blocker (tamsulosin)

Version: 3
Date: 27 April 2014
Reviewer: Jacques Lacroix

Reviewer’s report:

I reviewed the revised version of the above study protocol, which is submitted to the journal Trials. The authors took into consideration all the comments that I made, as well as the comments of the reviewers. I believe that this manuscript is ready to be published as it is.

MAJOR COMPULSARY REVISIONS
