Reviewer's report

Title: Development and testing of culturally sensitive patient information material for Turkish, Polish, Russian and Italian migrants with depression or chronic low back pain in a double-blind randomised-controlled trial (KULTINFO): A study protocol

Version: 2 Date: 13 May 2014

Reviewer: Reitze Rodseth

Reviewer's report:

I am happy that the authors have seriously considered the comments made by the reviewers. Where they have been unable to modify the protocol as per the suggestions this seems to be as a result of resource limitations. It is clear to me that they understand the limitations of the protocol.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
