Reviewer's report

Title: Comparing the effect of a decision aid plus patient navigation with usual care on colorectal cancer screening completion in vulnerable populations: Study protocol for a randomized controlled trial

Version: 6 Date: 11 June 2014

Reviewer: Zhaoxiang Bian

Reviewer's report:

1. What is the barriers that affect the screening rate? Especially in these group of patients? No clear definition is difficulty to design the aids.
2. Please provide more detailed information about the centers, randomization, blinding, randomization concealment, etc.
3. Any pilot study data about this study? Based on these questions, minor revision is required.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
