Title: Recruitment of Young Adults into a Randomized Controlled Trial of Weight Gain Prevention: Message Development, Methods, and Cost

Version: 3 Date: 16 July 2014

Reviewer: Melissa Napolitano

Reviewer's report:

I have reviewed the updated manuscript entitled “Recruitment of Young Adults into a Randomized Controlled Trial of Weight Gain Prevention: Message Development, Methods, and Cost” (Version 3, Date: July 11, 2014). It is evident that the authors considered and carefully updated their manuscript based on the original critiques. As such, the revised manuscript is robust and noticeably improved upon from the first submission. Furthermore, the added subheadings and subsections increase the clarity and flow of the manuscript.
