Reviewer's report

Title: Understanding of Chest Pain in Microvascular Disease Proved by Cardiac Magnetic Resonance Image (UMPIRE): Study Protocol for a Randomized Controlled Trial

Version: 2 Date: 22 April 2014

Reviewer: CheeJen Chang

Reviewer's report:

The author must respond to these before a decision on publication can be reached. For example, additional necessary experiments or controls, statistical mistakes, errors in interpretation.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

none for all!
