Title: Tai Chi-based exercise program provided via telerehabilitation compared to home visits in a post-stroke population who have returned home without intensive rehabilitation: a randomized, non-inferiority clinical trial

Version: 4 Date: 20 December 2013

Reviewer: Kelli Allen

Reviewer's report:

This is a nicely written and very detailed protocol paper.

I only have one recommendation for a minor essential revision:
Page 5, toward the end, there seems to be a typo or grammatical error in sentence beginning, "Moreover..."

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
