Reviewer's report

Title: Feasibility, double-blind, randomised, placebo-controlled, multi-centre trial of hand-held NB-UVB phototherapy for the treatment of vitiligo at home (HI-Light trial: Home Intervention of Light therapy)

Version: 2 Date: 19 December 2013

Reviewer: Rong Chu

Reviewer's report:

Minor Essential Revisions

1. First bullet point for the secondary objective related to the successfulness of training package was stated in the "Author’s response to Reviews" but missing in the main text.

2. Table 2, SD of age for children in the placebo group (n=1) should be n/a rather than 0.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
