Reviewer's report

**Title:** Factors associated with compliance and non-compliance by physicians in a large-scale randomized clinical trial

**Version:** 2  **Date:** 2 August 2006

**Reviewer:** James Wright

**Reviewer's report:**
I have read through the revised manuscript. I think they have improved it with respect to the issue of causation and the strength of the reported relationships so that part looks fine, but I think it still needs a good edit job for the language aspect.

**What next?:** Accept after minor essential revisions

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
