Reviewer’s report

Title: Three-dimensional quantitative analysis of adhesive remnants and enamel loss resulting from debonding orthodontic molar tubes

Version: 4 Date: 22 August 2014

Reviewer: Abbas R Zaher

Reviewer’s report:

The authors have answered all the raised points sufficiently to allow their manuscript to be published.
All the original criticisms have been corrected as proposed.
Only minor corrections are required.

Minor Compulsory Revisions:

1. In Material and Methods Section, 3rd Paragraph, 4th line:
   “… at the power of the test of 80 … “
The number “80” should be changed to “0.80”

2. In References Section, 10th Reference:
   “Srpe Arh Celok Lek2012”
A space is missing between “Lek” and “2012”

3. In References Section, 11th Reference:
The number “387” is repeated, and the word “disc” should be omitted.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests.
