Reviewer’s report

Title: Mandibular reconstruction using plates prebent to fit rapid prototyping 3-dimensional printing models ameliorates contour deformity.

Version: 3 Date: 30 July 2014

Reviewer: Heather Logan

Reviewer’s report:

- Minor Essential Revisions
  Discussion, paragraph 4, line 8… sentence should be corrected. “… and could be helpful in planning…”

- Discretionary Revisions
  For the surgical outcome evaluation, it may be beneficial to describe who made the measurements (tracing etc.) and how you standardized the measuring technique. Also, how did you know that your measuring technique was reliable and is it repeatable?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
