Reviewer's report

Title: Use of porous high-density polyethylene grafts in open rhinoplasty: no infectious complication seen in spreader and dorsal grafts

Version: 5 Date: 20 September 2014

Reviewer: Harun Çöloglu

Reviewer's report:

I think it is still insufficient illustrative of the pictures of cases. It would be nice if patients make better photos. "Unless the difficult situation We do not recommend the use of Medpor in the nasal dorsum and rim" I want to put the sentence conclusions part !!

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
