Title: Orthodontic Treatment Needs in the Western Region of Saudi Arabia: a research report

Version: 5 Date: 10 January 2006

Reviewer: Carlos Flores Mir

Reviewer's report:

Dr. Hassan has clarified significantly his report. These clarifications will help the reader in understanding the limitations of the present report. Final edition from the editorial staff before publication should improve the level of English which is inadequate in some sentences. Thanks again for the opportunity to review this report.
