Reviewer's report

Title: Endoscopic Sinus Surgery For Maxillary Sinus Mucoceles

Version: 2 Date: 20 March 2006

Reviewer: Heitham Gheriani

Reviewer's report:

General

Overall a good retrospective chart review for an uncommon condition which adds strength to the support for Endoscopic management of Maxillary sinus mucocele.

A very good and comprehensive discussion section.

-------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None.

-------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

There is a small spelling error at Page 7 in the last line sentence ‘thick and though’ should be spelt as ‘thick and tough’.

-------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
