Reviewer's report

Title: Circulating Immune Complexes and trace elements (Copper, Iron and Selenium) as markers in oral precancer and cancer: A randomised controlled clinical trial

Version: 6 Date: 4 August 2006

Reviewer: Ulrich Meyer

Reviewer's report:

General

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

The revised version of the manuscript is now in accordance with the formal structure of a research paper. Some minor corrections should be done:

TheAbstract should start with a sentence e.g. The aim of the study was to evaluate the levels......

Inthe Abstract and Materials and Methods Section, it must be (CIC and Cu) were determined using .... and not were estimated

Inthe Introduction section line 16 it must be ..achieved by advances .. instead of my advances...

Graph 1, 2, 3 should be in the form of bars like graph 5.

The manuscript is otherwise accepted for publication (after these changes are done)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published
